9	01.06.21	Street Cleaning	Would it be possible for your street cleaner to pick up some rubbish it is after tesco before weary traveller. It looks like take away litter. Many thanks	As mentioned a while back the Messenger facility has been disabled as we ideally need formal contact via the Council's e-mail/phone/writing.... I'm afraid that MDDC arrange the Street cleaning and I am not sure who is doing this job now as there has been a change of Cullompton's Street cleaner. I will mention this if I see the operative tomorrow when I am in the town/Town Hall.	email	TCED/CW		
10	02.06.21	Allotments	Allotment holder contacted office to say a group of people had been seen on site 2 or 3 times i.e non-allotment holders - on apparently they were verbally abusive . 26	18/06/2021	Planning	Question concerning planning applications in Cullompton particularly in relation to the former golf course at Padbrook Park.	Explained to the correspondent that, at this time, there has been no formal planning application to develop the former golf course at Padbrook Park although, from responses provided by the landowner to the consultations on the MDDC Local Plan and the Neighbourhood Plan, there may be an aspiration to do so.	Telephone	PL		
27	18/06/2021	Planning	Complaint that the letter of response to DCC regarding the proposed MUGA at Meadow Lane had not been supplied as requested.	Explained to the complainant that there was no letter sent to DCC and that the resolution of the council to support the application, with reservations, had been copied and pasted into DCC's planning consultation web page. The complainant was unsatisfied and stated that he would get a Court Order to obtain the letter that he is convinced exists.	Telephone	CTH		
28	21/06/2021	Cemetery Grass	Complaint regarding state of cemetery grass	Advised that the grass has been particularly 'prevalent' this year due to the sunshine and rain that we have experienced. Further, that the Council are currently in the process of arranging an external contractor to cut the grass and also the staffing constraints which have not helped. The grass has been cut twice in the last 1.5 mths. Profuse apologies were conveyed on behalf of the Council and with the emphasis that we are extremely mindful of the emotive nature of the situation.	Telephone	CTH		Needs excess soil added around double plot - Apparently (Perry) advised he would do a while back....

37	25/06/2021		Browsing the website I came across meeting attendance monitors that were way out of date and incomplete. I also notice that what was recorded was non attendance with NO APOLOGIES in some instances constant no apology. Surely this is not good example to public and in my case certainly think it unacceptable as it destroys confidence in their suitability to be in office. Apart from occasionally placing this info on website, what other purpose does it serve?	Thank you for your message as per below relating to attendance. I understand there are figures showing on the website which record Councillor's absence up to Sept'20 and can confirm that my colleague is currently looking at the attendance figures from that date to current and that this is 'in hand' - Absence as shown is absence with apologies (P) and absence without apologies (O) We are required to publish this information which does give members of the public oversight as to the meetings attended by individual councillors. 55	04/07/2021	General state of Cullompton	And I apologise to you in advance for the below and just so I'm being clear it is not aimed at you Maria, but if you or the parish council can effect some influence and change on any of the below or take it forward at planning meetings I would be very grateful. What is going on at the moment ... we have fly tipping, I have an abandoned fly tipped microwave outside my house at the moment which I have reported over a week ago but it's still there. (See end of this email) anti social behaviour there was three young people outside my home last week at midnight beating each other up, destruction of property and vandalism... I found 5 min walk this morning not to be uplifting but disgusting and disappointing. Why would anyone visiting Cullompton want to move here?.. and there going to build more housing... with no gardens, nowhere to put recycling bins, insufficient parking. no waste management infrastructure e.g. recycling public waste bins particularly at bus stops and ugly house designs that have no architectural relation to the character of our region at all.. all we have to look forward to is more cramped, ugly, no greenery, depressing cookie cutter housing estates that could be anywhere. Mid Devon and Devon County	Many thanks for your message as per below. Yes, agree that destruction of property and fly tipping is not what we wish to see at all. Would you be happy for me to share your e-mail and photos to our District and County Councillors and also within the Council? I will enter your comments onto the Council's log and a record kept and shared to the Resources Committee together with any official response. Going forward, please can you e-mail any comments or complaints directly to enquiries@cullomptontowncouncil.gov.uk and these will then be progressed accordingly in line with the accepted procedure. I am happy to be cc'ed in so I can be aware of what is 'going on'.	E-mail	Resources/CW		Requested permission to share e-mail with Council + County & District Cllrs. Advised request for any future comments/complaints to be e-mailed to enquiries follow accepted procedure.

56	05/07/2021	AGAR	Is there any reason why the council is NOT publicising the way for the public to ask questions re finance ?Hope to see a link soon.	On the Council's website is information regarding raising questions – The Annual Governance Statements and accounts as you are aware, are signed and dated by the Chairman and then forwarded to the external auditor who undertakes the audit and reviews the accounts for the year, verifying their accuracy. The accounts must then be available for public inspection for 30 days and electors are able to exercise their rights to: <a href="https://www.cullomptontowncouncil.gov.uk/_UserFiles/Files/Finance/2020-2021%20FY/public%20rights%20fo">https://www.cullomptontowncouncil.gov.uk/_UserFiles/Files/Finance/2020-2021%20FY/public%20rights%20fo</a>		TC

61	07/07/2021	Leat - FP1	There is a problem with adult cyclists thinking that the public footpath at the end of Higher Mill Lane is a Bridleway and insisting on ploughing through the narrow alley between The Mill ( the green house adjacent to the footpath) and the high wall of the gardens on the other side of the path. The footpath remains narrow as it turns the corner until it reaches the outlet for TESCOs. It is really only wide enough for single people and passing others can be difficult.This morning a large young male adult refused to get off his bike, when asked, despite pedestrians ahead of him, insisting that this was a bridleway and refusing to accept this is a Public Footpath.So insistent was he that I checked the OS map to confirm that it was, as it has always been, a Public Footpath. IN recent months I have encountered other cyclists using these narrow paths as cycle routes which causes mounting anxiety to pedestrians.This footpath is used by all manner of pedestrians including the elders from the sheltered housing near the top of the Lane, school children and Mothers with children and pushchairs.Whilst I am not suggesting any enforcement measures be considered, I do believe a clear sign stating that this is a Footpath and requesting cyclists dismount	Many thanks for cc'ing me into your reply –NB: I have not seen the original e-mail from [REDACTED] and I believe it is because my e-mail address is slightly incorrect (– Not to worry [REDACTED] I have it now. My e-mail address has a full stop/dot between Deputy and Clerk)Thank you for contacting Stuart. This could be considered a potential health & safety issue as the path as we all know can be quite narrow in places and is used by many pedestrians so not overly conducive to cycles and certainly not at the same time! I await Devon County's response in terms of signage.I am also cc'ing our volunteer footpath warden (Nick Savage) so that he is apprised of the comments and also the Town Clerk, Joy Norris and the Chair of Community Wellbeing Committee, Cllr. Janet Johns.	E-mail (+ via Cllr. Woollatt)	TCED		Community Wellbeing Committee

72	25/07/2021	Illegal Vehicular Access	Despite MDDC PLANNING DEPARTMENT Granting illegal vehicle access over public land, to also allow the Cullompton Town Council illegal access to the rear of the week Waldrons House this is totally unacceptable from MDDC and DCC and Cullompton Town Council. The status of footpaths by Parliament entry over rides that of local councillors in law. Motorised vehicles cannot be legally granted access locally at any level of authority. I will be approaching Parliament at the earliest opportunity once all criminal acts have been fully documented. <a href="https://www.whatdotheyknow.com/body/devon_and_cornwall_police">https://www.whatdotheyknow.com/body/devon_and_cornwall_police</a>		E-mail to DTC	TCED		I understand this individual has been classed as a vexatious individual and that the Council will acknowledge but not respond to said party

77	04/08/2021 approx. 3:30pm	Water Loss - Higher Street	Local property has water flooding out of the door and running about 50ft down the road - Apparently been running for quite a while. Caller asked if Council holds a list of local landlords.	Advised Council do not hold these records and that this would not be jurisdiction of the Town Council. Further that as South West Water have said they cannot do anything in terms of this issue (as water coming from inside property) that the suggested course of action is to (if comfortable) approach the tenants to advise. Caller explained they are not comfortable speaking directly to tenants and the caller believes the tenants are aware of the situation but probably don't know what to do. Advised caller that in the circumstances, perhaps the neighbouring business has the landlords contact details..Alternatively, if no joy then to contact the local police on 111 to speak with Cullompton's Community Liaison Officer (Mel Spiller) who may be able to arrange translation with the tenants to hopefully resolve this matter quickly. 			<p>I'm not even sure if it's officially called Bell Lane, but I'm sure you still know where it is I'm talking about.I asked a Councillor a couple of months ago about getting the road sweeper down there to clean up the broken glass that's been left there for ages, also for someone to cut back the brambles which are overgrown again on the slope leading up to haymans close. If this isn't the council's responsibility then could you please get the person or people who are responsible to get it sorted out. The slope is getting worse and yesterday I personally got caught up in the brambles and cut my hand. There's broken glass along the lane, there's rubbish left outside of the back of the pub, a fridge which has been trashed. It's an eyesore and a danger for people and pets.</p> <p>I hope that something can be done, as I don't think the councillor I spoke to even passed on my concerns.</p>

92	09/09/2021 14:07	Station Road Toilets	<p>Hello. Please can you get someone to clean the public toilet in Cullompton . The state of it is quite horrible. We have seen cleaner go in there to replenish but it really does need a good scrub and bleach. My colleagues and I are working [REDACTED] and the only access we have to facilities are there. We are constantly trying to keep our area in the car park sanitary and clean and have to use the one public toilet . Also this is the first impression a lot of visitors to Cullompton will get. If they visit here and with the town trying to regenerate after the epidemic. This is not ideal.</p> <p>Thank you</p>	<p>Thank you for your email, I have sent your email to our cleaning contractor (without your name or email) asking them to make sure that the toilets are cleaned thoroughly every clean. I will also be asking our maintenance supervisor to do some spot checks and your comments will be logged on our comments log and reported to the relevant committees.</p>	email	TCED

101	13/10/21 @ 3:32pm	Parking Ticket	I hope that you can help me with my appeal against a parking charge. On Saturday at the Autumn Festival Market, I parked in St. Andrews, having unloaded on the road side. It was very busy from the start. When I parked I had no cash so put in an 'hours free' ticket, intending to return imminently. There were so many people passing through, that time flew and I forgot. I paid rather late, went to the car with the ticket to find an unpleasant surprise stuck on the windscreen. By the way, the glue does not come off readily which adds to the aggravation. Parking fines issued to stall holders are not kind when they are contributing to the prosperity and good vibe of Cullompton. I do not think it fair that regular stall holders should have to pay to park in St. Andrews - a car park never full, even on this Saturday. I had not intended to defraud the car park. This fine represents about 25% of my takings, which is hard to accept. I could, if must, live with a £10 charge but £25 (discounted from £50!) is	I am very sorry to hear that you have received a parking ticket as stated below. The Town Council owns the site however has an agreement with DCC to administer the parking enforcement and it will periodically send around wardens to ensure that vehicles are parked appropriately. I see that you have made a representation to have your ticket rescinded but to be honest I doubt this will be upheld as otherwise this will set a precedent... we shall see. The Town Council would not be able to make a representation on your behalf, especially on this basis I'm afraid. As you are aware, your virtual permit only covers the car as registered for the MDDC Forge Way/Station Rd car park whilst the Wednesday Street Market is	E-mail	TCED	DCC	
102	14/10/21 @ 10:31am	Purchase of land	Thank you for taking the time to review my email. We're interested in purchasing a plot of land in Cullompton, in Blackborough which is currently under the B8 Storage Use Class. I'm just enquiring as to who we could speak to about the guidelines for that land, the limitations of the B8 Class and the process of applying to have it changed. Would love to have a conversation or an email exchange with any advice.	Just to advise that it would be Mid-Devon District Council (Planning Dept.) that you would need to contact in relation to this matter as the Town Council is only a statutory consultee for planning. MDDC telephone number is 01884 255 255.	E-mail	P&L	MDDC
